## Do you think this is just glassware?

As LAV, we believe innovative and creative ideas make the world a better place.

Correspondingly we work every day with an unyielding enthusiasm to add more value to our customers' lives with our products and digital services. We have succeeded in becoming a trusted brand, identified

with change and dynamism; By virtue of our craftsmanship and know-how, sustainable and state-of-the-art production facilities, and the sincere communication we have established with our customers and business partners.

We are still in a pandemic that started at the beginning of the last year and deeply affected our lives and our understanding of work and business. As a result of the measures we took in our factories and offices, our production and logistics activities remained uninterrupted without compromising our employees' safety during this period. We ensured our communication's effective flow with our customers and business partners through an online home-office system. This whole endeavor showed us how we were on the right track with our digital investments, such as online shopping, which we have laid the foundations for in the previous years.

We've also re-established our management structure to spread the brand dynamism to every single unit and team member. We adopted the "Agile Management" approach that would further improve our ability to respond to ever-changing market demands. We implemented a fast production-oriented work model where the teams keep motivated, and workgroups that can make autonomous decisions are utilized. Simultaneously, we thinned down the review, control, and approval phases and created a work environment that both internal and external customers can remain involved in all stages. Our "Journey to Excellence" continues with digital solutions we had constructed for our innovative customers and a sustainable future since 2015 when we joined the EFQM organization. We expand and update the efficiency and profitability through three main strategies on an operational basis in this direction.

We are also preparing a report we will be happy to share in the upcoming days. The 2020 LAV Sustainability Report will include subjects that LAV has been working on and commit to doing so: Gender equality, energy efficiency, efficient resource utilization, social responsibility projects, and product safety. Here are some of the headlines we are proud to list: Women make up 45% of our white-collar workers, we have the most energy and water-efficient factories of the sector in Turkey, not only we produce glass, but we are also one of the world's three companies that manufacture its own production machinery.

Being aware that everything starts and ends with "communication," we can't reiterate enough that our customers can always have constant and open communication with us at will. We know LAV derives its strength from familiarizing with its customers as much as its production capacity. We determine customer needs clearly through market analysis, consumer research, home visits, and we follow and grasp global trends. We establish the right dialogue to be sensitive to our customers' needs, always act with "we-feeling," and hit the right chord of consumers and our business partners.

We hope you'll see more than just glassware in this catalog...

## Sizce burada sadece, cam eşyalar mı var?

LAV olarak, yaratıcı ve yenilikçi fikirlerin dünyayı yaşamak için daha iyi bir yere dönüştürdüğünne inanıyoruz. Bu doğrultuda her gün aynı hevesle kullanıcılarımızın hayatlarına ürünlerimiz ve dijital hizmetlerimizle, daha fazla değer katmak için çalışıyoruz. Zanaatkarlığımız ve bilgi birikimimiz, sürdürülebilir ve modern üretimimiz, müşterilerimiz ve iş ortaklarımıza kurduğumuz samimi iletişim sayesinde, değişim ve dinamizmle özdeşleştirilen, güven duyulan bir marka olmayı başardık.

Geçtiğimiz yılın ilk aylarında başlayan, hayatımıza ve çalışma anlayışımızı derinden etkileyen bir salgın döneminin içerisindeyiz. Bu süreçte çalışanlarımızın güvenliğinden taviz vermeden, fabrikalarımızda ve ofislerimizde aldığımız önlemler neticesinde üretimimiz ve lojistik faaliyetlerimiz aksamadan devam etti. Evden çalışma sistemiyle müşterilerimiz ve iş ortaklarımıza olan iletişimimizin etkin devamlılığını online'a taşımakla sağladık. Tüm bu süreç bize önceki yıllarda temellerini attığımız online alışveriş gibi dijital yatırımlarımızda ne kadar doğru yolda olduğumuzu gösterdi.

Bu dönemde sahip olduğumuz marka dinamizmini, her birimimize yapmak amacıyla yönetim yapımızda da yenilenmeye gittik. Değişen pazar koşullarına cevap verme yeteneğimizi daha da geliştirecek "Çevik Yönetim" anlayışını benimsedik. Otonom karar alabilen çalışma gruplarının yer aldığı, kontrol ve onay katmanlarının azaldığı, takımların motive çalıştığı, iç ve dış müşterilerin tüm aşamalara dahil edildiği, hızlı üretim odaklı bir çalışma modelini devreye alındı. EFQM organizasyonuna dahil olduğumuz 2015 yılından bugüne sürdürümüz "Mükemmellik Yolculuğu"na da, sürdürülebilir bir gelecek ve yenilikçi müşterilerimiz için yarattığımız dijital çözümlerle heyecanla devam ediyoruz. Bu yönde verimliliği ve karlılığı ise, operasyonel bazda 3 ana strateji kapsamında geliştiriyor ve güncelliyoruz.

2021 yılının ilerleyen günlerinde paylaşmaktan mutluluk duyacağımız bir de rapor hazırlığımızdayız. 2020 yılı LAV Sürdürülebilirlik Raporu'nda cinsiyet eşitliği, enerji verimliliği, kaynakların verimli kullanımı, sosyal sorumluluk projeleri, ürün güvenliği gibi LAV'ın yaptığı ve yapmayı taahhüt edeceğim konular yer alacak. Burada özellikle sıralamaktan keyif duyduğumuz bazı başlıklar ise; LAV'ın, çatısı altında çalışan beyaz yakalı istihdamın %45'i kadınlardan olması, Türkiye'de sektörün en az enerji ve su tüketen fabrikalarına sahip olmamız, sadece cam üretmekle kalmayıp, kategorisinde kendi makinelerini üreten dünyadaki üç firmadan biri oluşumuz.

Bu yeni düzende her şeyin başlığı ve bittiği degerin "İletişim" olduğunu farkında olarak, müşterilerimize bizimle her zaman yüksek ilişki de bulunabilecekleri mesajını tekrarlıyoruz. LAV'ın gücünü üretim kapasitesi kadar müşterilerini çok iyi tanımasından aldığı bilincindeyiz; bunun için pazar analizleri, tüketici araştırmaları, ev ziyaretleri ile kullanıcı ihtiyaçlarını eksiksiz ve net bir biçimde belirliyor, dünya trendlerini takip ediyoruz. Doğru diyaloglar kurup, müşterilerimizin taleplerine duyarlı davranışları, 'biz biliyoruz' ile hareket ederek tüketicilerin ve iş ortaklarımıza kalbine dokunuyoruz.

Elinizdeki bu katalogta cam eşyalarдан fazlasını görmeniz dileğiyle...

## BEST FRIENDS

When choosing the cheese to accompany your white wine, remember the following basic rules:  
Serve hefty and aged wines with matured cheeses.

Creamy, soft cheeses complements younger wines! Sweet and semi-sweet white wines should be balanced with salty and complex cheese like blue cheese.

## EN İYİ ARKADAŞLAR

Beyaz şarabınıza eşlik edecek peyniri seçerken şu temel kuralları unutmayın: Gövdeli ve yılanmış şarapları olgunlaştırılmış peynirlerle servis edin. Genç şaraplarla ise kremimsi yumuşak peynirler iyi gider. Tatlı ve yarı tatlı beyaz şaraplar, rokfor ve blue cheese gibi tuzlu ve kompleks peynirlerle dengelenmeli.

The word whisky has evolved from "uisge beatha," which is Gaelic (an ancient language is spoken in Scotland) and means "the water of life." The same structure in medieval Latin' aqua vitae' is also used for hard drinks since the 1300s, and it's assumed that Gaelic borrowed these words from Latin. Whisky production in Scotland began in the mid-15th century, and written records first mentioned it as whisky at the end of the same century.

Viski sözcüğü Gaelce (İskoçya'da konuşulan eski bir dil) 'hayat suyu' anlamına gelen 'uisge beatha' söz ikilisinin zaman içinde değişime uğramış halidir. Orta Çağ Latince'sinde aynı anlamda gelen ve 1300'lərdən beri sert alkollü içkiler için kullanıldığına rastlanan 'aqua vitae' deyişinden Gaelce'ye geçtiği düşünülmektedir. İskoçya'da viski üretiminin 15. yüzyılın ortalarında başlamıştır; yazılı kayıtların viskiden bahsi ise aynı yüzyılın sonlarına denk düşer.

Chocolate covers the mouth and tongue surfaces, dulling the sense of taste, and then the nose gets surpassed by whisky's layered and sophisticated aromas.

*Çikolata, ağız içini ve dil yüzeylerini kaplayarak tat alma duyusunu köreltir sonrasında viski, katmanlı ve sofistike aromaları ile burnu baskı altına alır.*

## CHOOSE YOUR GLASS!

Presentation is crucial for a drink that has been matured with skill and patience for years. Even high brow and splashy spirits may end up disappointing with an inharmonious glass, while some humble drinks can offer pleasant surprises with the right glass. It is beyond a doubt that the glass choice is a critical factor that influences the experience. And in this choice, three main features emerge.

**APPEARANCE:** Design and material should make the whisky stand out so that you can "feel" it. Glass should look good in the hand, on the table, and also on display. The structure should be balanced and comfortable to grasp.

**DRINKABILITY:** Base weight, diameter, and drinking angle!

One should not be forced to toss down a whisky whose value is measured in mere drops to drink it. Enjoy it gently and responsibly.

**SMELLING:** For a slightly firmer experience focused on the scent, narrow rimmed glasses should be the choice. Wide rimes may be preferred if you'd like a softer, respirated experience where the ethanol can easily evaporate.

## BARDAĞINI SEÇ!

Yıllarca sabırla ve ustalıkla olgunlaştırılan bir içki için elbette sunum çok önemlidir. İddialı, yüksek beklenaklı içkiler uyumsuz bir bardakla hayal kırıklığı yaratılabilirken, burun kıvırılan bazları ise doğru bir bardakla hoş sürprizler sunabilir. Bardak seçiminin deneyimi etkileyen kritik bir faktör olduğunu söylemez. Bu seçimde üç temel özellik ortaya çıkar.

**GÖRÜNÜM:** Tasarım ve malzeme, viskinin kendini göstermesini ve hissettirmesini sağlamalı. Bardak; elde, masada ve vitrinde iyi durmalı. Dengeli olmalı ve rahat kavrana bilmeli.

**İÇİLEBİLİRLİK:** Taban ağırlığı, ağız çapı ve içim açısı! Değerli damlalar üzerinden ölçülebilecek bir viskiyi içebilmek için bardağı "kafaya dikmek" zorunda kalınmamalı.

**KOKLAMA:** Koku odaklı, buruna konsantr olmuş biraz daha sert bir deneyim için daralan ağızlı bardaklara bakılmalıdır. Daha yumuşak içimli, etanol buharının içkiden rafatça uzaklaştiği, nefes almış bir viski tercihiniz ise geniş ağızlar tercih edilebilir.

Sage is one of the oldest medicinal herbs in human history. Its Latin name Salvia comes from the word 'salvere,' which means preserved or to heal. You don't need to add anything, and it does so much by itself. Sage feels so good for our body!

## ANTİK ŞİFA

Adaçayı, insanlık tarihinin en eski tıbbi bitkilerinden birisi... Latince ismi Salvia'nın isim kökü "korunmuş", "iyileştirmek için" anlamına gelen "salvere" den geliyor. Ona bir şey ilave etmenize gerek yok, o tek başına o kadar çok iş hallediyor, bedenimize o kadar iyi geliyor ki!

## BREATHTAKING TRANSFORMATION

Inspired by the magnificent natural phenomenon of the caterpillar's transformation into a butterfly, the Ancient Greeks used the word "psyche" for the butterfly. The literal meaning of this word is "breath". Unlike the body, it expresses the breath of life, hence the soul.

## NEFES KESEN DÖNÜŞÜM

Muazzam bir doğa olayı olan tırtılın kelebeğe dönüşümünden ilham alan Antik Yunanlar kelebek için "psyche" kelimesini kullanır. Bu sözcüğün gerçek anlamı, "nefes"tir. Bedenin aksine yaşamın nefesini, dolayısıyla ruhu ifade eder.

#### DRINK IT COLD (AND FROM A GLASS)

Goblet, with its long and elegant, the chalice with its thick and heavy bottoms are excellent choices for high ABV beers like German Doppelbocks and Eisbocks and Belgian Tripel and Quadruples.

#### SOĞUK (VE BARDAKTA) İÇİNİZ

Alt tarafı uzun ve zarif olan goblet ile kalın ve ağır olan chalice, özellikle sert tabir edilen yüksek ABV'lı biralar olan Belçika Tripel ve Quadrupeller, Alman Doppelbock ve Eisbockların içimi için harika seçeneklerdir.

### WANT MY TEA STRONG!

Samovar is one of the oldest tools used for brewing tea. It consists of a combustion chamber and a water chamber surrounding it and has a tap at the bottom. It's a Russian word, and it means "self-boiling". Samovar is intensively used, especially in Russia, Central Asia, and Near East. But as time passed, it left its throne to the teapot in Turkey.

### DEMLİ OLSUN!

Semaver çay demlemede kullanılan en eski araçlardan biridir. Kelimenin kökeni Rusça'da "kendi kendine kaynayan" anlamına gelen samovar kelimesinden gelir. Rusya başta olmak üzere, Orta ve Yakın Asya'da yoğun bir şekilde kullanılan semaver, Türkiye'de yerini çoğunlukla çaydanlığa bırakır.

#### WHY SLIM WAISTED GLASS?

In the Turkish style tea glass design, the thin waist is always preserved no matter how modern the new design is. The thinning of the middle allows the lower part to fit in the palm and so the warmth of the tea is felt better. The widening of the opening of the glass allows the tea to cool and be smelled.

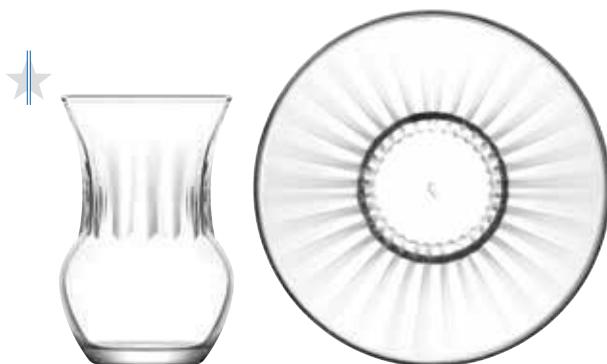

#### NEDEN İNCE BELLİ?

Türk tipi çay bardağı tasarımda, form ne kadar modern olursa olsun ince bel daima korunur. Bardağın ortaya doğru incelmesi alt kısmının avuçta oturmasını sağlar ve çayın sıcaklığı avuç içinde daha iyi hissedilir. Bardağın ağızının genişleyerek sonlanması ise çayın hem kokusunun duyulmasını hem de içim için soğumasına olanak verir.

**Color of hospitality**  
*Çay içmeden, bırakmam!*

Drinking tea in Turkey doesn't have long history like the coffee but it has become the symbol of hospitality and unity in the social life. Tea brewed from the early hours of the day to the later hours of the night is always essential.

*Türkiye'de çay içmek, kahve kadar köklü bir geçmişe sahip olmasa da, kısa sürede sosyal yaşamda misafirperverliğin ve birellikteğin simgesi olmuştur. Günün ilk saatlerinden gecenin ilerleyen saatlerine demli bir çay, her daim vazgeçilmezdir.*

## HEALTH ELIXIR

During the Ottoman Empire period, puerpera sherbet served to the palace guests has turned into a traditional catering habit over the centuries. Made with barberry sugar, water, cinnamon, cloves, and various spices, this beverage is drunk by women to increase the amount and the nutritional value of breast milk.

## SAĞLIK İKSİRİ

Ottomanlı döneminde, saraya gelen misafirlere ikram edilen lohusa şerbeti, yüzyıllar içerisinde geleneksel bir ikram alışkanlığına dönüşmüştür. "Kızamık şekeri", su, şeker, tarçın, karanfil ve türk baharatları yapılan bu içecek günümüzde en çok doğum yapan kadınlara anne sıvısını çoğaltması ve besleyiciliğini artırması için işirilir.

### NEVER WITHOUT CINNAMON

Salep powder is one of the most unique and valuable Turkish cuisine treasures produced from an orchid tuber. In Turkish ice cream, sweetens and cools our tongues and, when mixed with hot milk, warms us with its fragrance in winter.

### TARÇINSIZ ASLA

Yazın dondurmaların içerisinde ağızımızı tatlandırip serinleten, kışın ise sütle birlikte içtiğimiz mis kokusuyla içimizi ısıtan salep tozu, orkide kökünden üretilir. Türk mutfağının en özel ve değerli hazinelerinden biridir.

## LEAVES OR THE ROOT?

Compared to the root, beet leaves contain many times more protein, phosphorus, and zinc, vitamin B6, magnesium, potassium, copper, and manganese, as well as plenty of antioxidants. Try adding beetroot leaves to your salads regularly.

## YAPRAKLARI MI KÖKÜ MÜ?

Pancar yaprakları içerisinde, pancardan kat kat fazla protein, fosfor ve çinko, B6 vitamini, magnezyum, potasyum, bakır ve manganeze ilaveten bol miktarda antioksidan barındırır. Pancar yaprağını sıkılıkla salatalarınıza ilave edin.

## INNOCENT POTATO

Sweet potato, a root plant, not only keeps you full thanks to its complex carbohydrate and fiber structure, but it also allows the sugar to mix into the blood much more slowly due to its lower than standard potato glycemic index. You can fry, boil, bake them in the oven or roast them over a cinder.

You can serve it as puree, garnish, and soup.

## MASUM PATATES

Bir kök bitki olan tatlı patates kompleks karbonhidrat ve lif yapısı sayesinde yalnızca tok tutmakla kalmaz, normal patatese oranla düşük olan glisemik indeksi sayesinde şekerin kana çok daha yavaş karışmasını da sağlar. Tatlı patatesi kızartabilir, haşlayabilir, fırında veya közde pişirebilirsiniz. Pure, garnitür, çorba olarak pek çok yemeğini yapabilirsiniz.

*İşıldayan Sofralar*

Small, large, wide, deep... Regardless of the size, glass bowls continue to play the leading role in the tables. Glass bowls elevate the temptingness of a piping hot soup, the variety of treats, and seasonal fruits' colorfulness.

*Küçük, büyük, geniş, derin... Her ne boy olursa olsun cam kaseler sofraların başrolünde olmaya devam ediyor. Dumanlı tütün bir çorbanın davetkârlığı, mevsim meyvelerinin renkliliği, ikramların çeşitliliği kaselerle bir kat daha artıyor.*

Sugar Bowls - Şekerlikler

## SUGAR-COATED CHICKPEAS

In addition to healthy snacks, you can also include candies and dragees in your treats. Almonds, walnuts, hazelnuts...

And roasted chickpeas could be considered to be the most innocent of them. Roasted chickpeas are common in the Middle East. While sold mostly salted, sugary versions offer a surprising taste.

## ŞEKERLİKTE LEBLEBI

İkramlarınızda sağlıklı atıştırmalıklar yanında yemiş şekerlemelerine ve drajelere de yer verebilirsiniz. Badem, ceviz, fındık...

Leblebi ise bunların en masumu diyebiliriz.

Orta Doğu'da yaygın olan ve kavrulmuş nohuttan yapılan leblebi, çoğunlukla tuzlu olsa da, şekerlemesi sürpriz bir tat vadeder.

## MASTER OF BALANCE

When we look at the 2021 color trends, the first thing that strikes our eyes is neutrals, which still dominate strongly. The revamped color palette shifts to warmer tones. Warmer whites, more soothing tones, and grays that balance them! Gray; The color that neutrality, harmony, modesty, and simplicity are most associated with. Gray is virtually a symbol for sustainability, a minimal and timeless combination of white and black. When used with vivid colors, it is one of the main actors of contrasting aesthetics with its calming effect like white.

## DENGE ÜSTADI

2021 renk trendlerine baktığımızda gözümüzde ilk, hakimiyeti hala güçlü şekilde devam eden nötraller çarpıyor. Yenilenen renk paleti ise daha sıcak tonlara kayıyor. Daha sıcak beyazlar, daha yaratıcı tonlar ve onları dengeleyen griler! Gri; tarafsızlığın, uyumun, mütevaziliğin ve yalınlığın en çok ilişkilendirildiği renk. Beyaz ve siyahın birleşimden oluşan gri, minimal ve zamansız oluşuya da sürdürülebilirliğin simgesi adeta. Canlı renklerle kullanıldığında ise beyaz gibi sakinleştirici etkisiyle, tezat estetiğin baş aktörlerinden biri.

## WINTER PREPARATION

You can make sherbet, jam, syrup, sauce and composte from ripe and soft forest fruits that you can find in abundance in autumn. Thus you can enjoy them all winter. You can either add it to yogurt for breakfast or add it to the meat as sauce. You can also serve your desserts with forest fruits until the new season by freezing the fruits.

## KIŞ HAZIRLIĞI

Sonbahar aylarında bol miktarda bulabileceğiniz olgun ve yumuşak orman meyvelerinden reçel, şerbet, şurup, sos ve kompostolar yapabilirsiniz. Böylelikle onları tüm kış keyifle tüketebilirsiniz; ister kahvaltıda yoğurda ekleyin ister sos olarak etleri tatlandırın. Meyveleri buzlukta dondurarak yeni sezona kadar tatlılarınızı orman meyveleriyle servis etmeniz de mümkün.

### PROTEIN BOMB

If you consume vegetables or salad, you could get hungry again just in 1-2 hours, so you should add protein and unsaturated fatty acids to your diet. Lentils are a good source of protein with a low glycemic index, and they keep you full. You can keep that delicious salad in LAV jars or containers and carry it with you.

### PROTEİN BOMBASI

Eğer bir tabak sebze ya da salata yerseniz 1-2 saat sonra yeniden açıksınız, o yüzden öğününüzü protein ve doymamış yağ asitlerini de eklemelisiniz. Örneğin mercimek düşük glisemik endeksli iyi bir protein kaynağı olduğu kadar tok tutan bir besindir. Bu lezzetli salatayı kavanoz ya da saklama kabında yanınızda alabilirsiniz.

#### COLOR OR TASTE?

Purple basil has a unique color and strong aroma. It goes well with pasta and salad and its sherbet has an incredibly refreshing taste in summer. It has the most beautiful pink color the eye can ever see. If you mix the sherbet with mineral water, the color will turn from pink to purple.

#### RENGİ Mİ TADI MI?

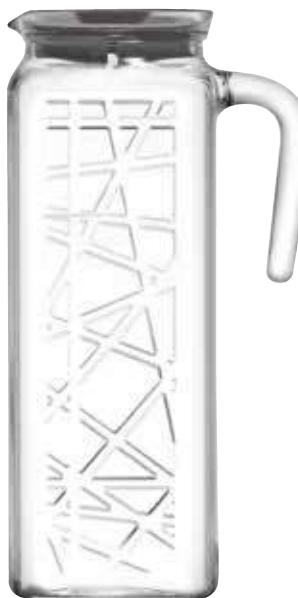

Kendine has rengi ve güğlü aromasıyla reyhan, fesleğen ile aynı ailededir. Salata ve makarnalara çok yakışır ve şerbetinin yaz aylarında inanılmaz ferahlatan bir tadı vardır. Görüp görebileceğiniz en güzel pembe renge sahiptir. Şerbeti maden suyu ile karıştırısanız rengi pembeden mora dönecektir.

### FUTURE OF WATER

According to the World Wildlife Fund (WWF), although almost all of the world is covered with water, only 2.5% of the world's water is freshwater. And 70% of this water is frozen in ice and snow. The demand for freshwater resources increases each day, and approximately 700 million people suffer from water scarcity in 43 different countries.

### SUYUN GELECEĞİ

Dünya Doğal Hayatı Koruma Vakfı'na (WWF) göre, dünyanın neredeyse tamamı sularla kaplı olsa da, gezegende su kaynaklarının sadece yüzde 2,5'i tatlı su kaynaklarından oluşuyor. Bu suyun yüzde 70'i ise, buz ve kar kütlelerinde saklı. Su kaynakları üzerindeki baskının her geçen gün arttığı dünyada yaklaşık 700 milyon insan 43 farklı ülkede su kıtlığı çekiyor.

### PASTORAL BREEZE

Pastel colors suit the best to spring and country side parties. Pastels tones help you create colorful and lively tables. At parties dominated by blown out colors, decorate your table mostly with wild flowers. Prepare the cocktail recipes in accordance to the color harmony of the table.

### KİR ESİNTİSİ

Bahar ve kır partilerine en çok pastel tonlar yakışıyor. Pasteller romantik olsa da renkli civil civil sofralar yaratmanıza yardımcı olurlar. Uçuşan renklerin hakim olduğu partilerde masanızı en çok kır çiçekleri ile süsleyin. Kokteyl tariflerini de sofranın renk uyumuna göre belirleyin.

#### FLAVORED AND SAVORY

Sommeliers are now being associated with another liquid besides wine: water! Although it may sound a little surprising, it is obvious that we do not value the smell and taste of water, the building block of life and the liquid we consume the most, as other drinks. Isn't water's colloquial definition "tasteless, odorless liquid" a bit unfair? Water sommeliers are the professionals who approach water with a focus on aroma and taste, researching and organizing tastings and collecting samples from all over the world.

#### AROMASIYLA TADIYLA

Somolye artık şarap dışında başka bir içecek ile de birlikte anılmaya başlanıyor: Su! Kulağa biraz şaşırtıcı gelse de hayatın yapı taşı, ve en çok tüketdiğimiz sıvı olan suyun tadına kokusuna, diğer içecekler kadar özen göstermediğimiz de aksıtar. Genel geçer tanımının: "Tatsız kokusuz sıvı" olması biraz haksızlık değil mi? Su sömelyeleri; içme sularına, içeriklerine, aroma ve tat odaklı yaklaşan, dünyanın dört bir yanından örnekler toplayan, araştıran, tadımlar düzenleyen profesyoneller.

### SWEET JOY

There is something about ice cream that gives people joy. Maybe we can further contribute to this joy with a few serving tips. Wet your spoon with room temperature water and insert it in the ice cream. Ice cream melts from out to the inside, it is much easier to spoon it up from the edges to the center. The ideal storage temperature is -8 degrees (17.6 F). The back of the freezer is the best place to store the ice cream.

### TATLI MUTLULUK

Dondurmanın insanı mutlu eden bir yanısı var. Bir kaç servis tütüsü ile bu mutluluğa belki katkı yapabiliriz. Servis kaşğını oda sıcaklığında suyla ıslatarak dondurmaya daldırın. Dondurma dışarıdan içeriye doğru erir, kenarlardan içeri doğru kaşıklamak çok daha kolaydır. En ideal saklama soğukluğu -8 derecedir. Buzluğun arkası tarafı dondurma saklamak için en uygun yerdir.
